Lauren/Whitney,

I'm redrafting the Task Order for the 404(g) outreach and RTC support.

Mike asked that I reach out to you'all to validate timing based on your 401 experience.

Currently, we have our outreach webinars planned as follows:

- Tribes- 4 - 4-6 hour webinars
- States – 2 - 1.5 hour webinars
- Public – 1 - 1.5 hour webinar.

Do you think we will need more time for the State and/or the Public Webinar? If so, how long?

Also, after the closure of the comment period, how long did it take your contractor to process the comments into snippets for EPA to review and address? Currently, I have 15 business days. Is this realistic? I would imagine this would depend in the response.

Thanks,
Chris

Hi Chris,

I had just a few small edits and questions. Most of my interest was on the length of the webinar meetings. Some seemed a bit too short. Please touch base with Lauren and Whitney on what we did on 401.

Thanks for turning this around so fast.

All my best,

Michael
